TYPOGRAPHY

From hand-drawn structure to clearer headings, labels, and readable strategy cards

01 EARLY WIREFRAME

02 BETA SCREEN

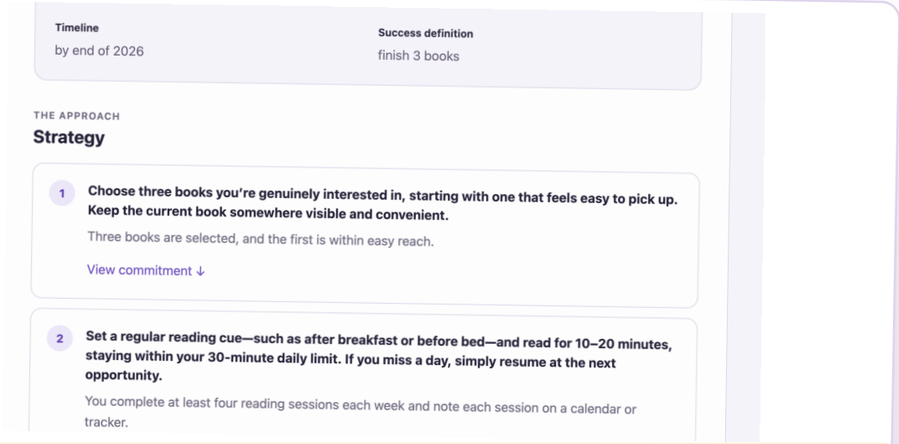

TYPE HIERARCHY

Your goal

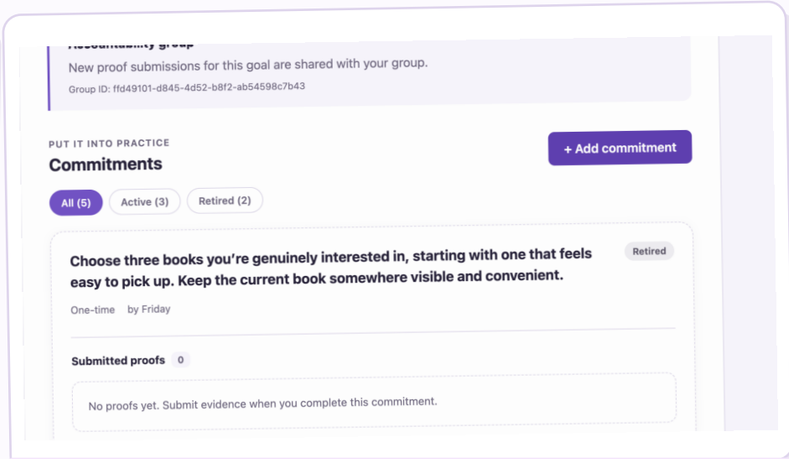

Strategy

Completed 10/20/2026

Active / Retired

Numbered steps turn long AI guidance into scannable chunks.

Metadata is quieter than the commitment title.

DESIGN DECISION

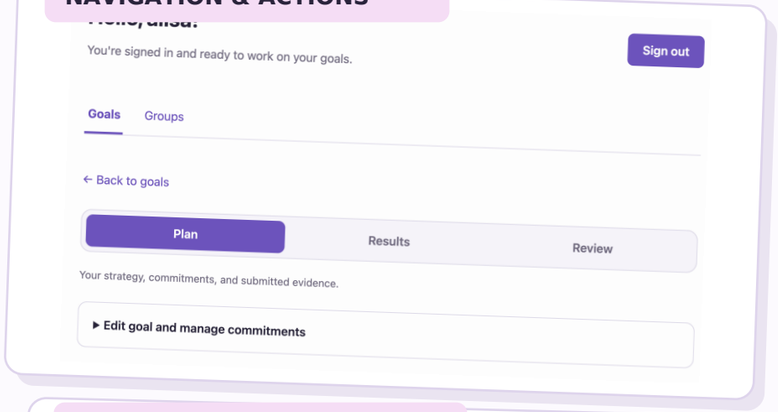

Early sections blended together visually. In beta, bold headings, uppercase section labels, numbered steps, and extra spacing create a clearer reading order.

COLOR

Purple signals actions; pale surfaces and semantic status pills separate information

REAL PROOF STATUSES

DESIGN DECISIONS

I initially found that some sections blended together.

Light lavender fills and thin borders now group details.

Saturated purple anchors selected tabs and primary actions.

Status labels combine text with restrained color cues.

Verified **Disputed** **Pending review**
